Forecast for Sunday 23 Jan 2022

Weather: Ranges east of the A9 will be dry throughout with variable amounts of low cloud, some capping cloud above 900 metres. Elsewhere more in the way of low cloud expected with some drizzly rain at times, with light snow or hail above 800 metres.

Chance of cloud free mountain/hill tops above 800m: 30% in the west, 60% in the more sheltered east

Visibility: Often poor in extensive low cloud down to 600 to 800 metres west of the A9. Elsewhere, outside of cloud visibility will be good with low cloud more broken, bases 700 to 900 metres. Best of the breaks around Cairngorm.

Met Office Aberdeen Meteorologist's View

Becoming increasingly windy through the day, southwesterly severe gales or higher summit storms will lead to slow progress and significant wind chill. Rannoch Moor and Ben Alder likely to see dampest and cloudiest of the conditions.

Forecast for Monday 24 Jan 2022

Weather: A cloudy start with outbreaks of rain, this turning to snow down to 600 metres for a short time before clearing away by late morning. The afternoon will be dry with some sunny periods.

Maximum wind: Southwesterly 50 mph in the early hours, decreasing through the morning becoming northwesterly 10mph by afternoon

Chance of cloud free mountain/hill tops above 800m: Little chance at first, but cloud steadily lifting off summits from the north through the morning with many summits cloud free by afternoon

Visibility: Poor in early low cloud down to 500 metres, becoming very good with great air clarity from the north as the morning progresses. Only small amounts of low cloud around 800 metres in the afternoon.

Temperature: **Glens:** Plus 4 rising to 7 Celsius
At 800m: Plus 3 falling to minus 1 Celsius
Freezing level: Above summits at first lowering to 600 metres by afternoon
